Courses: Power BI Desktop, AI Fluency: Framework & Foundations, Excel for Data Analysis, SQL Fundamentals

PROFESSIONAL EXPERIENCE

Wittypen Media Services Private Limited
Finance Associate Jun 2022 – Jul 2024

- Managed end-to-end finance operations as the sole finance professional, reporting directly to the CEO and supporting quotations, vendor agreements, payment releases, accounts receivable, and cash management
- Reduced accounts receivable days from 50–55 to 35–40 and vendor payment cycle from 7 days to 2 days through process redesign
- Led migration of 5 years of financial data from QuickBooks to ZohoBooks, automating recurring processes and enabling real-time stakeholder access to P&L, balance sheet, and cash flow reports
- Improved forecast accuracy by 25% by redesigning the variance analysis process and identifying recurring anomalies across key planning metrics, directly supporting management's budgeting and business decisions.
- Built SQL-based dashboards in Zoho Analytics to provide Sales, Operations, and Tech teams with real-time financial and performance insights, improving cross-functional reporting and decision-making
- Prepared pricing reports for international (APAC) vendors, supporting cost negotiation and procurement decisions.

PROJECTS

- **DCF Valuation Model** | *Excel · Financial Modeling*

  Built a discounted cash flow valuation model to assess enterprise value, incorporating scenario and sensitivity analysis to evaluate key value drivers and the impact of different business assumptions.

- **3-Statement Financial Analysis Dashboard - BlackRock**| *Power BI · Data Model*

  Built an interactive Power BI dashboard consolidating 7 years of BlackRock Inc.'s financial statements into a star-schema data model. Authored 15+ DAX measures (margin, liquidity, ROA/ROE, YoY growth) and Power Query ETL pipelines, surfacing profitability trend and balance sheet risk insights.

- **GDP Forecasting - ARIMA Model** | *R · Eurostat Data*

  Forecasted macroeconomic trends using econometric time-series models on Eurostat data.
